Chief Commissioner, Ajmer Merwara

PART I

GENERAL SUMMARY

(1) The average rainfall throughout the district was again deficient being 15 inches 92 cents against normal average of 21 inches. The agricultural outturn was nevertheless fair, Rabi and Kharif crops both varying from 6½ annas to 10 annas.

(2) Income and expenditure as shown in the report were Rs 27 61 367 and Rs 28 54 817 as against Rs 26 07 142 and Rs 25 22 121 in the previous year. Figures are included in the Public Works Department Report available to the Commission. Civil works which are not however included certain items both on the revenue and non-revenue side which cannot be legitimately considered as part of the Ajmer Merwara budget. The figures are misleading but a close examination has shown that Ajmer Merwara as a province tends to show a small deficit. During the year Mr Campbell submitted a report upon retrenchment in the Province and his recommendations are being carried into effect.

(3) Excise and Income Tax both yielded increased revenue. Excise collections rose from Rs 6 09 717 to Rs 7 01 808. The increase of Rs 32 092 chiefly under head "Country spirit" was due to the increase in the rate of still head duty brought into effect from 1st April 1923. Net Income Tax receipts amounted to Rs 2 29 056 as against Rs 1 69 115 in the previous year. The total collection of Income and Super Taxes amounted to Rs 4 00,947 the cost of collection being only 1.53 per cent. 614 persons were assessed as against 449 in the previous year. The incidence of excise and income tax per head of population was Rs 1 6 8 and Rs 12 9 0 respectively.

(4) Receipts from Land Revenue rose from Rs 3 64 234 to Rs 3 60 474 and those from sale of stamps fell from Rs 2 55 582 to Rs 2 39 329.

(5) The incidence of crime per 1 000 of population rose from 50.2 to 54.3. There was a noticeable increase in serious crime and murder cases rose from 7 to 10.

(6) The number of civil suits including miscellaneous fell by 1 096 but there was an increase of Rs 82 419 in the total value.

(7) Mr J A Richey C I E I F S Educational Commissioner with the Government of India took over collateral charge from the permanent Superintendent of Education who proceeded on leave in October 1923. There was an increase of 17 and 570 respectively in the number of institutions maintained and the number of pupils as compared with the previous year. Nearly 51 per cent of the male population and 1 per cent of the female population were under instruction. Expenditure on education was Rs 5 65 612 as against Rs 5 36 890 in the previous year. The proposal to found a Rajputana University has not progressed further pending examination of the possibilities of affiliation with Delhi University or the proposed Agra University.

(8) The Co-operative movement in Ajmer Merwara continues to flourish except in the case of Agricultural Societies which showed a decrease. There has been an increase both in the number of Societies and in membership.

(9) A Committee has been appointed to enquire into and report on the finances and working of the various departments of the Ajmer Municipality. The revised draft of the Ajmer Merwara Municipal Regulation is under

SECTION III. PROTECTION

(1) *Ajmer Merrara Police (year ending the 31st December 1922)*

13 The total volume of reported crime excluding false cases and in comparison with the figures for 1922. The increase falls largely under heads (i) offences against the State public tranquillity safety and justice (ii) serious offences against the person (iii) serious offences against the person and property and (iv) public nuisances and offences under the Criminal Tribes Act. There was an actual increase of 54 in the volume of crime reported to the Police during the year.

The incidence of crime per 10,000 of population amounted to 343 compared with 502 last year.

14 Investigations were made in 90 per cent of cases reported compared with 91 per cent in 1922.

Forty one Police cases were struck off as false or as due to mistakes of fact or law compared with 69 the year before. 3 cases were investigated or supervised by the Deputy Superintendent of Police and 14 cases were personally enquired into or supervised by the Superintendent himself.

15 The number of murder cases reported increased from 7 in 1922 to 10 in 1923 including 2 cases pending from the previous year there were 12 true police cases, of which 4 were convicted 3 were pending at the close of the year and 4 remained undetected while in one case the accused is absconding. The figures for 1923 show a heavy increase over those of 1922 but are below the average of the triennium 1920-21-22. Of the 10 cases reported during the year 6 were due to sexual or private quarrel 3 were committed by thieves or robbers in the course of their Criminal Operations and one was a case of murder of a newly born child.

The outstanding case of the year was that in which a copy was shot from the steps of the Dargah in the July riots. The accused Sahibzad Khan was acquitted after the close of the year. In another case a Khadim of the Dargah stabbed his Hindu creditor in the street and an attempt was made to arrest him at the time by a police constable who saw the affray. This was one of the causes contributory to the July riots as communal excitement was aroused.

16 Only one case of poisoning was reported during 1923 compared with 12 in the same number in 1922. It, however, proved to be false and was expunged. There were 21 Magistrate's cases during the year of which 2 ended in conviction 12 were discharged while 7 remained pending at the close of the year.

17 29 cases of dakhni including 2 cases of dakhni with murder occurred during the year, of these 6 were house dakhnies and the remaining road dakhnies. The number of cases in 1922 was only 9. No conviction was obtained during the year. Mod Singh the leader of the gang responsible for no less than 11 cases has been arrested and is under trial in several cases, although his associates are still at large. The gang of Mangal Das of Marwar which was responsible for 2 dakhnis was rounded up by the Marwar Police and the principal members were killed. There are cases pending against members of Marwar Minis of Khatu Girth and Bapur and some well known camel lifters of Marwar. Bapur and Marwar who were arrested but escaped from State Police in 1922.

18 Including one case pending from 1922 there were 23 true cases of robbery for disposal compared with 19 true cases in 1922. Of the 19 one only ended in conviction one was acquitted 12 remained undetected and 6 pending at the close of the year. Two of the robberies were the work

of Mod Singh's gang, two of Kishangarh Baories, and one of the Sansies of Bhilwara (Mewar) settlement, the rest being probably committed by wandering criminal tribes gang.

19. The number of true cases including Magistrates' cases for disposal and those remained from last year was 557 compared with 604 in 1922.

20. There were 376 true police cases for disposal compared with 363 in 1922, 134 cases involving 166 persons were sent up for trial, 84·32 ended in conviction.

21. 72 true police cases were disposed of compared with 83 in 1922. Only 23 cases were worked out.

22. The year closed with 272 adult male members of all classes including gypsies on the Criminal Tribes registers as against 247 of 1922. There were 34 prosecutions under sections 22 and 24 of the Criminal Tribes Act and 7 under the Indian Penal Code and Criminal Procedure Code.

Restriction under section 11 of the Criminal Tribes Act amongst gypsies is undoubtedly proving beneficial (1) in checking ingress of State "Gypsies" and (2) in influencing restricted persons to settle down and adopt an honest livelihood.

23. 39 persons were prosecuted under preventive sections of the Criminal Procedure Code as compared with 43 in 1922. 30 out of 39 were bound over, 8 discharged and the case against one accused was withdrawn.

Police.

24. The total sanctioned allocation including private guards is 38 officers and 839 men as against 40 officers and 905 men in the previous year, 2 officers and 72 Head Constables and constables were brought under reduction owing to the necessity of general retrenchment and the purchase of two police prison van for the purposes of conveyance of prisoners between headquarters and out-lying police stations. The actual strength at the close of the year was 38 officers and 777 head constables and men.

25. 2 Officers and 5 men were convicted judicially during the year compared with 6 men in 1922, 1 officer and 29 men were punished departmentally compared with 19 men in 1922, 277 officers and men were rewarded receiving a total of Rs. 2,165-3-0 against 237 officers and men who earned Rs. 3,047-1 6 in 1922.

Of these cases 669 were reported under the Police Act. The number of cases under the Opium Act was 9 against 7 in 1922 and 23 in 1921.

28. 11,120 persons were placed on trial of whom 4,790 were convicted. The corresponding figures for the year 1922 were 11,362 and 5,166.

The average duration of each case was 44·87 days as compared with 37·47 in the year 1922.

The number of witnesses examined was 3,219 as against 3,407 in the year 1922.

29. The court of sessions dealt with the cases of 25 persons against 26 in the year 1922. Of these 21 were convicted, 2 acquitted and 2 remained under trial.

29-A. The number of appeals and miscellaneous criminal applications disposed of by the Chief Commissioner as High Court was 103 out of which 76 were rejected. The sentence in 6 was confirmed, in 2 enhanced, in 10 reduced or altered and in 4 was revised. There were 5 Miscellaneous Applications in which proceedings were quashed.

30 The number of appeals and revisions dealt with by the District Magistrate Sessions Judge and the Additional Sessions Judge was 277 of which 113 were rejected. The sentences in 26 cases were reduced and in 24 reversed. 4 were referred to the Hon. the Chief Commissioner and a new trial was ordered in 8 cases. 42 cases remained pending.

(3) *Civil Justice (year ending the 31st December 1922)*

1/2/23
S. H. S. S. S.

31 The total number of courts during the year was 31

The total number of suits including miscellaneous was 6,640 in 1922 showing a decrease of 1,096 cases.

The total value of suits instituted during the year was Rs. 14,07,272 11/2 against Rs. 13,24,833 2/4 in the year 1921.

Suits of all kinds the value of which exceeded Rs. 10 and did not exceed Rs. 50 numbered 3,263.

The total number of suits of all kinds for disposal including arrears was 12,503.

The contested suits disposed of numbered 1,310. 59 cases were decided by arbitration while 5,492 cases were disposed of without any contest. The number disposed of without trial was 2,206 and 101 were transferred to other courts.

The pending files at the close of the year were 13,400 as compared with 13,322 in the preceding year. Of these 1,290 had been pending more than 3 months. The average duration of the contested suits was 151.63 days and that of uncontested 53.1 days.

32 On the appellate side there were 152 appeals from decrees and orders and the pending files at the close of the year showed 161 cases against 162 in the preceding year. The average duration of appeals was 63.19 days against 71.13 in the preceding year.

32 A The total number of Appeals and Miscellaneous Civil Applications dealt with by the Chief Commissioner was 197. Details are given in statement 10 A (Civil).

33 The number of applications for execution of decrees was 17,786 against 20,065 in the year 1922. The number of pending applications for execution of decrees at the close of the year was 4,000 as compared with 4,825 in the preceding year.

(4) *Registration (year ending the 31st December 1922)*

1/2/23

34 There was no change in the number of registration offices which remained the same as last year, viz. 7. The total number of documents registered during the year was 1,601 against 1,844 during the preceding year. Decrease in registration of documents is due to a good agricultural year. The receipts amounted to Rs. 11,168 14/6 against Rs. 10,117 last year. Increase in receipts is due to raising of the scale of Registration fees. The area of agricultural land transferred by sale and mortgage was 1,167 2/13 against 6,732 last year.

The work of registration offices during the year was generally satisfactory.

(5) *Municipalities (year ending the 31st March 1923)*

1/2/23

Committee

Fifteen Special and 21 ordinary meetings were held the average attendance at each meeting being 17.66 and 15.55 respectively.

36 The total income of the year was Rs. 1,19,102 against Rs. 1,31,072 in 1921-22. The expenditure amounted to Rs. 4,19,149 as against Rs. 4,76,036 in the previous year. The deficit balance was Rs. 37,771.

The income shows an increase of Rs. 16,030 as compared with the figures of the preceding year. If, however, the Government loan of Rs. 18,000 is excluded there is a decrease of Rs. 1,970. The principal increase in receipts was under the head "Fees and revenue from market and slaughter house" and the chief decreases are observable under the heads "Octroi and Bonded Ware House" and "Sales miscellaneous".

The expenditure fell short of that incurred in the previous year by Rs. 57,517. The principal decreases occurred under the heads "Water supply", "Conservancy", "Lighting", "Roads" and "Office Establishment". The general result may be attributed to the earnest effort made by the Municipality to observe economy in expenditure wherever possible. The office establishment was reduced and retrenchment was also effected in other directions.

37. The gross and net receipts from octroi in the two years are shown below:—

	Gross. Rs.	Net. Rs.
1922-23	3,00,663	2,11,829
1923-24	2,93,304	2,11,651
Difference	—7,269	—175

38. The decrease of Rs. 7,269 in gross octroi receipts occurred chiefly under the items "jaggery" and Piece Goods" and "metals". The net octroi receipts as compared with the figures of last year show a decrease of Rs. 175. The percentage of refunds on gross octroi collections was 17.64 against 19.56 in the previous year.

39. The incidence of octroi taxation was Rs. 2-6-9 per head of the population against Rs. 2-6-4 in the preceding year.

40. A sum of Rs. 18,466 was paid towards the liquidation of Government loans, the balance of which due by the municipality at the end of the year amounted to Rs. 4,23,872.

41. The management of the Ajmer Water works remained in the hands of the Executive Engineer, P. W. D., Ajmer Division.

42. The total rainfall recorded at the different registering stations during the year was as follows:—

(1) Foy Sagar	13.00
(2) Municipal Storage cisterns	14.04
(3) Catchment area of the Foy Sagar	11.96
and	
(4) Bhaonta water works	15.51

The Foy Sagar lake was dry both at the commencement and close of the year, its highest water level during the year being only 8.80. At the Budha Pushkar lake the water level was 12.2½ at the commencement and 16.8½ at the close of the year. The water level of Bhaonta well No. 5 was 84.00 on the 1st March 1923 and 83.92 on the 31st March 1924. During the year, water was pumped from the Foy Sagar lake for about 6 months, from the Foy Sagar wells for about 8 months, from the Bhaonta wells for about 8 months, and from the Budha Pushkar lake for about 7½ months. In May and June the level of the Bhaonta well became dangerously low and the most careful supervision on the part of the Executive Engineer was required to avert a failure of this supply, water was pumped from the lead mine by electric power provided by the Railway authorities and for a short period a water train was run from Kishangarh. The latter experiment hardly justified itself. In May the services of Mr. F. J. Mallett, the Mechanical Engineer to the Government, U. P., were secured by the Local Administration. His report was of great value and prevented useless expenditure by the Municipality on the Bhaonta wells and by the Railway on Budha Pushkar.

In February 1924 on the recommendation of the Agent of the B. B. and C. I. Railway, the services of Major C. A. Poole were secured. His report on the underground water supply of Ajmer was of interest and a loan of Rs. 18,000 was obtained from Government to enable the Municipality to give effect to his recommendations. The results of the work thus undertaken will be shown in next year's report.

43 The number of births recorded was 2,437 and of deaths 3,050 as against 2,454 and 2,451 respectively in the previous years.

The birth and death rates per mille of population were 20.78 and 25.55 against 21.65 and 24.67 respectively in the preceding year.

The mortality among children under 5 years of age was 2.221 (55.08 per cent of the total mortality) against 48.42 in the previous year.

44 The total number of vaccinations performed was 5,201 against 4,901 in the previous year.

45 A committee was appointed by the Local Government to enquire into and report on the finances and working of the various departments of the Municipality. Their final report was not received during the year under report.

46 The Local Government has been moved to sanction the imposition of the following taxes—

- (1) Visitors' tax
- (2) Water tax
- (3) Horse tax
- (4) Vehicle tax

It is hoped that funds will thus be provided for improving the water supply and sanitation of the town which at present leave much room for improvement.

46 A. A new permanent stores sub-committee was appointed during the year under report for controlling the purchase and supply of all municipal stores. The results were satisfactory.

46 B. The revised draft of the Ajmer Merwarra Municipal Regulation is still under the consideration of the Government.

47 The Committee held 9 special and 19 ordinary meetings.

48 The total income and expenditure for the year amounted respectively to Rs. 1,40,111 and Rs. 1,29,247 as against Rs. 1,41,626 and Rs. 1,36,209 in the preceding year. The closing balance was Rs. 97,711 exclusive of Rs. 10,000 invested in Government Securities.

The income shows a decrease of Rs. 1,515 as compared with the last year. To this should be added a sum of Rs. 4,999 on account of sale proceeds of postal cash certificates received during the year. Thus the total amount of decrease comes to Rs. 6,514 which is chiefly visible under the head 'Octroi'. This is attributable to the fact that imports of dutiable articles were less on account of the failure of the monsoon.

The expenditure shows a decrease of Rs. 6,962 which occurred mainly under the head 'Water Supply' for the reason that during the year under report no large expenditure on the purchase of pumps, taps and pipes was incurred as in the last year.

49 The incidence of octroi taxation per head of population was Rs. 3.86 as against Rs. 4.87 in the year 1922-23.

50 The management of the Beawar water works remained in the hands of the Edward Mills Co. Ltd. Beawar. There was sufficient water in the three wells at Jalia. The total cost of water supply amounted to Rs. 14,26— including Rs. 12,033 on account of the maintenance of the works. The income from the sale of water amounted to Rs. 1,70—.

51 The numbers of births and deaths registered during the year were respectively 2,537 and 2,852 as against 2,457 and 2,770 in 1922-23.

52. The accounts for the year 1922-23 were audited by the Local Funds Audit Department of the United Provinces.

53. There was no change in the constitution of the Committee.

54. The Committee held 8 ordinary and 4 special meetings during the year

55. The total income and expenditure amounted to Rs. 27,031 and Rs. 27,251 against Rs. 29,386 and Rs. 18,431 respectively in the preceding year. The decrease of Rs. 2,355 in income is mainly noticeable under the heads "Octroi" and "Interest". The falling off in the octroi receipts was due partly to decreased import of articles of food and drink owing to large stocks remaining in hand from the previous year, especially in the case of gur and sugar, and to some extent to restricted import of zira. The interest on the balance of the municipal fund remaining with the Treasurer for 1923-24 was recovered after the close of the year under report, and this accounts for the decrease under this head. The increase of Rs. 8,820 in expenditure is due to (a) cost of making a portion of the Nalla leading water through the town pucca, (b) the purchase of land for the primary school, (c) repairs to roads which were left unexecuted last year, and (d) the contribution of a sum of Rs. 300 towards the construction of a New Hospital Building at Ajmer.

56. The incidence of Octroi taxation per head of population was Rs. 3-13-10 as against Rs. 4-8-5½ in the year 1922-23.

57. The numbers of births and deaths recorded during the year were 257 and 207 against 202 and 174 respectively in the preceding year. The birth and death rates per thousand of population were respectively 45·08 and 36·31 against 35·43 and 30·52 in 1922-23.

58. The balance at the credit of the Municipality at the close of the year was Rs. 38,777 (against Rs. 38,997 in the preceding year), including Rs. 11,000 invested in Government Promissory Notes and War Loan Bonds.

59. The accounts for the year 1922-23 were audited by the Local Fund Audit Department of the United Provinces. The financial position of the municipality at the close of the year was satisfactory.

60. This Municipality came into existence on the 1st May 1923. The Committee consists of 5 nominated members including the Commandant of the Mina Corps, Deoli, who is ex-officio Chairman

The Committee held 6 ordinary and 3 special meetings during the year. A sum of Rs. 4,536, being the cash balance of the late Deoli Cantonment Fund, which was abolished on the 30th April 1923, was transferred to the Committee. The total income and expenditure for the year (1 month of Deoli Cantonment Fund and 11 months Deoli Municipality) amounted to Rs. 4,456 and Rs. 4,261 respectively, leaving a closing balance of Rs. 4,685 at the end of the year.

The incidence of taxation per head of population was Rs. 1-1-7.

The numbers of births and deaths recorded during the year were 69 and 39 respectively

Action is being taken to have the accounts of this Municipality audited annually by the Local Fund Audit Department of the United Provinces as in the case of other Municipalities.

(6) *Medical (year ending the 31st December 1923).*

61. The number of dispensaries in Ajmer-Merwara during the year ending the 31st December 1923 was 7 as in the previous year.

The total number of indoor and outdoor patients treated in those dispensaries was 68,307 against 71,361 in the year 1922.

The ratio of mortality per cent. to total cases treated as indoor increased from 6·02 to 6·23. The high mortality in the Victoria Hospital is due to the fact that beggars and homeless wanderers are frequently brought in by the Police in a moribund condition, many of whom die almost immediately after their admission.

The total number of surgical operations of all kinds performed during the year was 429 with 10 deaths against 1373 with 4 deaths in the previous year. Of these 1412 were performed in the Victoria Hospital at Ajmer with 8 deaths against 1617 with 4 deaths in 1922.

The total income of hospital and dispensaries in Ajmer Merwara amounted to Rs. 38,725 as compared with Rs. 43,922 in the last year showing a decrease of Rs. 5,197 which is due to the fact that during the previous year a special grant of Rs. 3,000 was received from Government towards equipment and Rs. 1,200 from the District Fund.

The total expenditure amounted to Rs. 35,400 as against Rs. 41,216 showing a decrease of Rs. 5,816.

The invested capital remained the same as in the last year viz Rs. 28,500.

The Rajputana Industrial Works Company Limited Ajmer which went into liquidation last year was finally dissolved during the year under report.

The Society named Anjuman Nazir Auqaf was registered during the year under section 2 of the Registration of Literary Scientific and Charitable Societies Act XXI of 1860.

At the close of the year the authorised and paid up capitals of the existing companies were Rs. 15,93,000 and Rs. 1,92,400 as against Rs. 1,54,30,000 and Rs. 30,57,613 respectively in the year 1922-23.

The total receipts during the year amounted to Rs. 6,212 as against Rs. 1,867 in the preceding year. The decrease is due to the fact that in 1922-23 five new companies were registered against only 2 in the year under report.

The expenditure incurred by Government amounted to Rs. 8,014 in 1922-23. The increase which is small calls for no remarks.

The prescribed tables I to V are attached.

The office of the Registrar Joint Stock Companies Ajmer Merwara was held by the following Officers during the period mentioned against their names—

The total expenditure on arboriculture amounted to Rs. 8,519* as against 9,069 in the preceding year. The decrease in expenditure on Imperial Roads is due to the supply of water by the Municipality to the Ajmer nursery being restricted owing to the deficiency of the monsoon, and the decrease on District Fund Roads is due to the relinquishment of two roads last year.

458 head of cattle were impounded for illicit grazing on the Imperial and District Fund Roads against 1,219 in the previous year. The decrease was due to the fact that owing to the deficient rains there was less grass on the road sides.

The deposits from individual members increased by Rs. 57,996; the reserve fund by Rs. 11,628 and other funds by Rs. 17,835. The amount of profit earned by the bank during the year was Rs. 21,097. It advanced loans to the extent of Rs. 1,83,527 to individuals and Rs. 2,57,720 to other banks and societies.

The balance of loans outstanding at the beginning of the year was Rs. 10,20,166 and an aggregate of Rs. 4,41,247 was advanced during the current year bringing the total amount of loans to Rs. 14,61,413. Of this

a sum of Rs 4 59 3-2 was recovered during the year leaving an outstanding balance of Rs 9 72 0-31. The Bank continues to enjoy the confidence of the public. It has built new premises in Ajmer at a cost of Rs 23 56-2.

76 *Beawar Central Bank, Ltd*—The membership of individuals and societies rose from 283 and 225 to 291 and 228 respectively. The last year's balance of loans was Rs 1 57,933 and a sum of Rs 26 631 was advanced during the year under report. The amount collected was Rs 12 560 leaving an outstanding balance Rs 22 160 on the 30th June 1921.

The Bank is realising its assets prior to its closure. As soon as recoveries from two of its societies now under liquidation are made it will be wound up and a branch of the Ajmer Central Bank will be established in Kekri to finance the societies of that Sub division. This will it is hoped, be a satisfactory and economical arrangement. Experience has shown that there is no real need for a separate Bank in Kekri. Almost the whole sub division consists of Istimari Estates in which the Istimariars are sole proprietors and the cultivators tenants at will and there is not much scope for expansion of the Co operative movement in this area.

79 The net profits of all the Central Societies amounted to Rs 41 430 against Rs 59 434 last year. The amount of the reserve and other funds was Rs 1,92 644 against Rs 2 87 032.

80 The Co operative movement continues to flourish in the district and is being guided along the right path from which in the past there have here as elsewhere been some deviations by the Registrar Munshi Bal Kishan. His keenness and energy are deserving of the highest praise and his experience and knowledge of co operative principles and practice are of the greatest service to the movement.

81 The table below compares the result of the enumeration of Agricultural Stock in Ajmer Merwara during the year under report with the figures of the two preceding years.

Agricultural
Stock

There was foot and mouth disease among cattle in certain villages of Ajmer and Kekri Sub-Divisions.

82 Excluding arboriculture, which has already been dealt with above, the total receipts and expenditure of the Ajmer-Merwara Forests for the year under report amounted to Rs. 54,400 and Rs. 37,940* respectively against Rs. 42,712 and Rs. 34,054 in the preceding year. The net surplus was thus Rs. 16,460 against Rs. 8,658 last year. Much useful work has been done during the year. There has been a marked increase in revenue and this expansion is likely to continue if new Forest roads are constructed to open up the more inaccessible tracts.

Credit for the satisfactory results achieved is due principally to the Extra Assistant Conservator of Forests, Babu Dayanand Mamgain.

84 The system of fluctuating assessment in 46 villages worked satisfactorily. The following table compares the assessment made in the year 1331 A.S. (1923-24 A.D.) with the standard revenue fixed —

No. of Villages	STANDARD.			ASSESSMENT IN 1331 A.S.		
	Land revenue	Water revenue	Total	Land revenue	Water revenue	Total

As compared with the standard amount there was a deficit of Rs. 926 in the amount received which was due to insufficient water in wells and tanks.

85. The Miscellaneous income during the year amounted to Rs. 14,139 against Rs. 11,325 last year.

86. The retail prices of the principal food grains, barley and maize, were as follows:—

The increase of Rs. 32,091 chiefly under the head "Country Spirit" was due to the increase in the rate of still-head duty brought into effect from the 1st April 1923.

The expenditure amounted to Rs. 26,437 as compared with Rs. 29,966 in the preceding year, showing a decrease of Rs. 3,529 which was mainly due to the transfer to Foreign service in the Jaipur State of Rai Bahadur M. Pyari Lal, Superintendent of Excise, during part of the year and the appointment of an Officer on a lower salary during his absence, and partly to the strict observance of economy in expenditure. The net revenue after deducting expenditure was Rs. 6,75,371 against Rs. 6,39,751 in the last year.

The incidence of Excise revenue per head of population rose from Rs. 1-5-8 to Rs. 1-6-8 during the year under report.

There is practically no illicit export of exciseable articles from Ajmer-Merwara

The smuggling of liquor, opium and cocaine into the district has increased lately. Efforts are being made to check it as far as possible.

The Excise Intelligence Bureau established in 1913 had done useful work in systematizing the detection of the breaches of Excise rules.

97. The non-co-operation movement had practically no effect on Excise administration during the year.

The efficient working of the department is due to the keen interest taken by Rai Bahadur M. Pyari Lal, Extra Assistant Commissioner of Excise. Useful work was also done by Pandit Jagat Nandan when officiating as Superintendent of Excise.

(3) Stamps.

98. The gross income from Stamps amounted to Rs 2,38,329 as against Rs 2,55,582 in the year 1922-23 as shown below :—

Total	2,55,582	2,38,329	- 17,253

The decrease in the sale of Judicial Stamps was due to the enhancement of the rates of court-fees which resulted in a diminution in the number of suits instituted.

There were no prosecutions for breaches of stamps law during the year.

The expenditure on account of the refund of the value of stamps was as under :—

The net collection amounted to Rs. 2,29,056* against Rs. 1,59,115 in the previous year. In addition to this a sum of Rs. 37,977 was collected at source in respect of which the information is available in the office —

A sum of Rs. 3,321 was refunded by the Income tax Officers to the assessors.

100 No portion of the net demand of Rs. 1,33,914 on account of super-tax remained outstanding on the 31st March 1921. The net collection thus amounted to Rs. 1,33,914* against Rs. 84,623 in the previous year.

101 The total collection of income tax and super-tax amounted to Rs. 4,00,917. The number of persons assessed to tax by the Income tax Officers in Ajmer Merwa was 614 as against 449 in the previous year. No persons were prosecuted for failure to submit accounts. The cost of collection amounted to Rs. 6,139 as against Rs. 4,532 in the preceding year.

Sixty-five appeals were filed under section 30 (1) of the Income tax Act, 1922, of which 54 were disposed of and 11 remained pending at the close of the year.

The percentage of expenditure on the total collections was 1.53. The incidence of tax per head of population (1,95,271) in the district of Ajmer Merwa calculated on the amount collected was 12.9 annas.

B.—REVENUE AND FINANCE OTHER THAN INHERITANCE

102 The year opened with a cash balance of Rs. 29,082 excluding the District Fund and a balance of Rs. 701.

The receipts amounted to Rs. 81,810 against Rs. 74,748 in 1922-23.

The corresponding figures of expenditure are Rs. 77,562 against Rs. 74,145 in the preceding year.

The increase in receipts during the year as compared with the figures of the previous year is due to increased receipts from the Capital Tax on animals during the Puja festival while the increase in expenditure which falls mainly under the head 22 Education is due to

- (1) the payment of arrears of taxes at enhanced rates
- (2) annual improvements and
- (3) some increase in the expenditure on the repairs of village schools.

The closing balance of the District Fund on the 31st March 1921 was at Rs. 30,532 excluding that of the District Fund at Rs. 72.

The Board held its session during the year.

District Fund
(Rs. 72)

Local Funds.

103 The cash balance at the credit of the Ajmer-Merwara Dispensary Fund at the beginning of the year amounted to Rs. 701.

The receipts during the year under report amounted to Rs. 11,531 against Rs. 12,737 in the preceding year. The decrease is attributable to the failure of certain Istimrardars to pay their contributions and to the discontinuance of the special grant made by the Beawar Municipality in the previous year. The expenditure during the year amounted to Rs. 11,004 as compared with Rs. 12,890 in the preceding year, showing a decrease of Rs. 1,886 which is due to a general decrease under nearly all heads of expenditure.

The year closed with a cash balance of Rs. 728, exclusive of investments in Government Securities to the extent of Rs. 44,000.

104. The receipts amounted to Rs. 16,108 as against Rs. 14,100 in the previous year. The increase is due to the larger amount of cess recovered.

The expenditure amounted to Rs. 21,029 as against 14,937 in the preceding year. The increase is due mainly to the investment of Rs. 4,350 in war bonds of the face value of Rs. 5,000.

The closing balance at the credit of the fund on the 31st March 1924 was Rs. 5,534, the condition of the fund being sound.

Besides this cash balance there are investments aggregating to Rs. 25,000 and a permanent advance of Rs. 50 at the credit of the fund.

105. The total receipts amounted to Rs. 84,489 as compared with Rs. 1,01,948 in 1922-23 the decrease of 17,459 being chiefly due to the fact that the last year's figures included a sum of Rs. 15,000 on account of sale proceeds of war bonds.

The expenditure amounted to Rs. 86,386 as against Rs. 1,00,667 in the preceding year, showing a decrease of Rs. 14,281 which is mainly attributable to the fact that expenditure amounting to Rs. 10,000 was incurred in the preceding year in remetalling the roads in the Sadar Bazar.

SECTION VI

PUBLIC INSTRUCTION

(Compiled by J. A. I. for Esq. M. A. C. H. L. S. & per consent of Eliza & self and
Amos Metwally)

106 The summary at the beginning of the statistical tables shows that General the number of recognised institutions rose from 150 to 164 during the last year and the number of scholars attending them from 10 620 to 11 126

The different grades of educational institutions are well distributed: one College, ten High schools, twenty-two middle schools, one hundred and forty seven primary schools and four special schools.

Mr J A Richey C I I I S Educational Commissioner with the Government of India took over collateral charge from the permanent Superintendent of Education—Mr J I Watkins I I S—who proceeded on leave in October 1923.

107. The proposal to found a Rajputana University took more definite shape during the year. Committees were appointed which prepared a con- University Education

ist and scheme for
le hearted support
without their help

the proposed university can at any time be abandoned it will be in Government College A)

University. Yet they must in 1927 either cut off their intermediate classes or reduce themselves to the status of Intermediate Colleges. The former alternative is for financial reasons impossible the second is very inadvisable and would be most unpopular. There remains the possibility of affiliating the colleges either with the University of Delhi or the prospective University of Agra.

The Government College Ajmer shows a further increase in number to 101. Considering that it includes in its courses science up to the degree standard it is an inexpensive institution. The staff is not highly paid and economy is studied by making much of the physics apparatus in the college workshop. The premises are good but need electric installation.

10^c The two Government high schools are well run and deservedly popular. The standard of instruction if one may judge by examination results compares favourably with that of the majority of schools in the United Provinces. The Ajmer Government High School is well housed and well staffed. The Mohini Islamia High School on the other hand is over crowded and weakly staffed. The pressure on the accommodation will be relaxed when the primary classes are moved during the present year to a new block built for them in the compound by the Advisory Committee. There is, however, Moham
madans or schools
and with them they also

suffer from a lack of trained staff. With a larger introduction of the vernacular medium in the middle department it may be possible to make more use of senior trained vernacular teachers. The question of the curriculum is at present in a somewhat confused state. Hitherto the Anglo-vernacular middle departments and schools have prepared us for the Rajputana Middle School Examination. This was held for the last time this year. The permanent Superintendent had suggested its abolition and was supported by the majority of the headmasters of the larger high schools. The wisdom of this step is at least doubtful. There are a number of middle schools in Rajputana States which relied upon this examination to set them on a higher standard of attainment. It is doubtful whether its abolition will not lead to a large influx of unfit pupils into the High Department. Hitherto partly owing to the check exercised by this examination partly owing to local conditions the number of boys reading in the high school stage in Ajmer Merwara

has been very small in comparison with the number reading in the middle department. The Secondary and Intermediate Board of the United Provinces has introduced a new curriculum for Anglo-vernacular schools but has permitted schools in Rajputana to keep the curriculum laid down for the Rajputana Middle School Examination. With the disappearance of this examination the curriculum of the Rajputana schools will tend to adapt itself to that prescribed by the Board. The most radical change is the substitution of the vernacular for English as the medium of instruction of the Middle Department. This change is educationally sound but there are other particulars, *e.g.*, the insistence of a knowledge of two vernaculars, etc., in which the new curriculum is not an improvement.

The chief need of the secondary schools in rural areas is boarding accommodation. This is true of Anglo-vernacular schools such as the good Municipal School at Kekri, and of vernacular schools such as the vernacular middle schools at Sawar and Saradha. There is, as usual, a demand for the addition of English classes to vernacular-middle schools notably at Bhim and Pushkar, but until the parents support the demand with some tangible evidence of their keenness Government would not be justified in incurring extra expenditure.

109. The infant classes A and B are still retained in secondary schools but they must be dropped soon in order to bring their primary departments into line with the vernacular primary schools of the province. This change in vernacular schools was made two years ago and has proved very successful. The number of classes four, is now manageable by a single teacher in a small school and the rearrangement of the school curriculum has saved a year of school life. There is still room for a certain number of new primary schools and a number of schools are in need of suitable buildings.

110. The standard of instruction in the rural primary schools is generally good owing to the sound training the teachers receive in the Normal School at Mirshah Ali. This is a satisfactory institution which has done much towards laying a good educational foundation in Ajmer-Merwara. It has at present some 40 students. A small training class was opened last year in connection with the Mission School at Beawar.

111. The apparent drop in the number of girls' schools is due to the amalgamation of two primary schools with the Central Girls' Schools at Ajmer. This school has now been transferred to the late Government High School buildings which are very suitable for this purpose. The number of pupils has considerably increased but the total number of girls at school in Ajmer is still very low.

112. Mohammadans form about a quarter of the population of Ajmer-Merwara but in school attendance they are far behind other communities, 1,334 out of 9,648 in ordinary boys' schools and 24 out of 1,297 in girls' schools. The chief need is for Mohammadan teachers of all grades and of both sexes.

113. European schools in Ajmer are as full as they can be. St. Anselm's is at present borrowing boarding accommodation from the Government College but proposes to build this year a boarding house of its own. The Convent High School has lately added a well-built and well-equipped domestic science block which will develop a very useful side of the school work.

113-A. The Boy Scout movement is making a good start in Ajmer. There has been a popular Scout troop in St. Anselm's school and the High School for some little time and two of the Indian High Schools—the Husband Memorial and the Government High Schools—have made a successful beginning.

Lala Ram Dhan, now on his fourth extension, and Pandit Gava Prasad carried out satisfactorily their duties of Deputy and Sub-Deputy Inspectors of Schools.
